So its come down to this. A glimpse into the past and a scattering of words, meant to remind you of school years from now. Three years ago I walked down the halls here for my first time. I hadn't a clue where I was going, and didn't know anyone to show me the way. Soon though, the halls became common place and familiar faces began to emerge. From familiar faces came friends and from friends came relationships that will endure a lifetime. I have had good times and awkward times, but none that I won't remember. People, events, and dreams that deserve a better place than a dusty room in my mind, but rather a refreshing smile and a soft embrace. Friends too good to dishonor and a soul mate to love forever. Harwich High has been many things to many people, but for me it is best left unsaid, for I am too poor an author.

I never asked for much in life. All I needed to keep myself happy was my imagination. However, as I go through High School, I can see that I also need friends. They are the ones who make us laugh when we're sad, and are there to keep us straight when we have little slip-ups in life. Friends are like candy, the wider the variety, the happier we are. This, my friends, is the secret to life. I'd like to thank my friends, my TRUE friends, for without whom, my life would be meaningless. MT AH MM JR JB TS BE CH MM LL SD, the ENTIRE tv crew, and all of those who found the courage to talk to me, I thank you. I'm not leaving, I'll always be here, for we never leave our friends. I look forward to living a long and happy life, with my friends. Have fun!

**The blizzard of '96** follows the hottest year in recorded global history. The blizzard crippled northern US cities where airports, roads, and even the postal service ceased to function. Alaska, in contrast, had very little snow during the winter season. After July's heat wave killed hundreds in the US, eleven hurricanes swept across the western hemisphere, the most since 1933. Some weather experts have linked such extreme conditions to possible global warming.

**Speaker of the House of Representatives Newt Gingrich** faces President Clinton in a budget showdown of policy and politics. Disagreement between the president and Congress over how to balance the federal budget ultimately led to a partial closing of federal government offices in November and December, 1995. Congress discussed reducing the rate of increase in spending for Medicare, Medicaid, and Social Security as a means to reduce the deficit, but failed to reach a compromise with President Clinton.

## Bosnia

On May 25, 1995 NATO warplanes struck Bosnian Serb headquarters. The Serbs responded by storming UN weapons depots and safe areas, taking peacekeepers hostage. Such reports, along with photos of the Bosnian countryside that revealed scenes reminiscent of the bloody massacres of World War II, emboldened NATO to strive more diligently for the cause of peace. For remaining Bosnians who had survived the 42-month-long war, NATO launched its largest combat mission ever and prompted the first stable cease-fire in the region since the break-up of what was once Yugoslavia. On December 13, President Clinton deployed 20,000 US troops on a peacekeeping mission to Bosnia. The next day, leaders of Bosnia, Serbia, and Croatia met in Paris, France to sign a US-sponsored peace treaty keeping all warring parties temporarily at bay. US troops complete the 60,000-strong Atlantic Alliance to help enforce and supervise the peace plan.
